

You'll be smiling too...  
when you know how much money we can save you

Griffiths Goodall Insurance Brokers (GGIB) are the farm insurance specialists for the Australian fodder industry. With a rapid decline in the number of insurance companies offering farm insurance, GGIB has established an exclusive panel of underwriters for the membership group of the Australian Fodder Industry Association (AFIA).

Whether you run a small sole proprietor farmstead or a large diversified agricultural business, GGIB provide advice and assistance to make sure you are properly protected. As one of the largest privately owned insurance brokerages in the nation, GGIB offers a complete insurance broking package encompassing technical insurance advice, market analysis, risk management and claims management services.

With experience, integrity and all the right underwriter distribution channels, we provide advice and guidance to help you make informed decisions. We are efficient and responsive in everything we do and we always have your best interests at heart, which is why we offer flexible payment arrangements.

GGIB is a member of both the National Insurance Brokers Association and the Insurance Brokers Network of Australia. Membership of these credible

and accredited bodies ensures that we stay ahead of changes within the industry – and that helps us provide first class advice and tailor-made service to you.

Give us a call today to discuss your insurance requirements.
